Map D Wodonga Australia

A Strong and Vibrant TAFE in one of Australia's Most Vibrant Regions

Established in 1986, Wodonga TAFE is located in one of Australia's largest and most vibrant regional areas and is an integral part of the region's learning community. We're close to snowfields and some of Australia's most productive agricultural land and service a regional population of more than 100,000. We also service a number of smaller rural centres and a range of students and business enterprises right across Australia through our onsite training endeavours and distance education programs.

Wodonga is ...

- 3 hours drive from Melbourne and 6 hours drive from Sydney on the Hume Freeway
- Easily accessible by air and rail
- Australia's first Learning City.
