A business division of Wodonga Institute of TAFE

NISTC is a specialised business division of Wodonga TAFE that offers a diverse range of industry-focused courses in driver training and licensing, warehouse and logistics, materials handling, forestry and timber, road transport, civil construction and building, industrial assessment and licensing, and motorcycle training and licensing. NISTC also delivers training to the Australian defence forces.

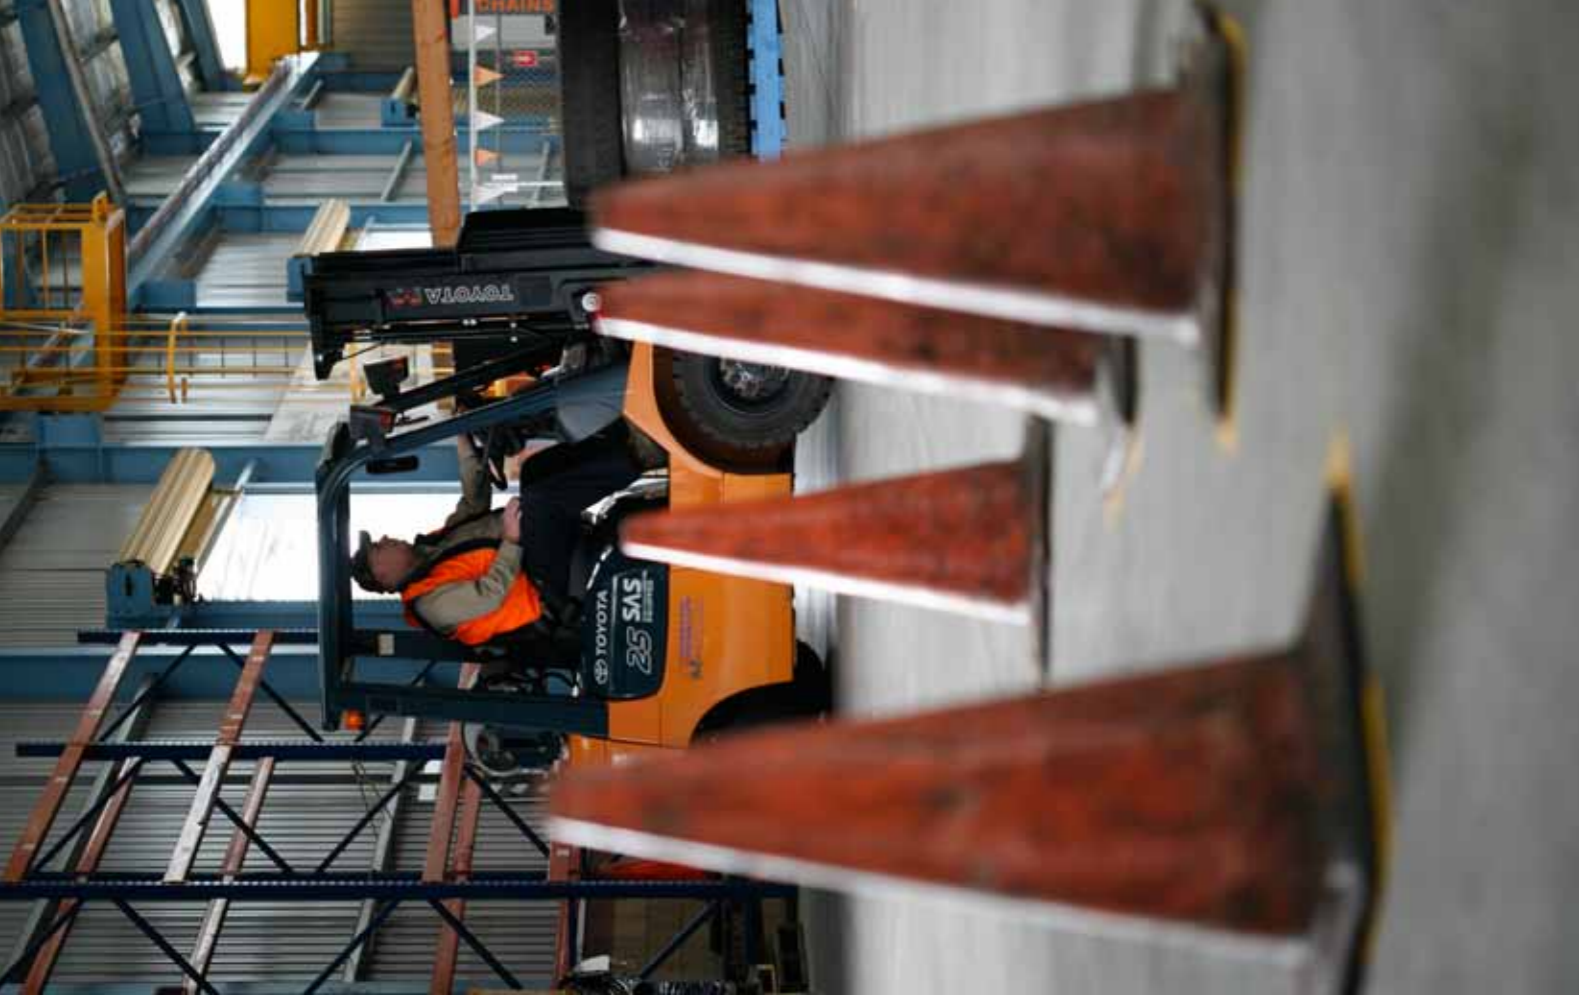

NISTC is located on Moorefield Park Drive near University Drive, in Wodonga.

Why chose NISTC?

Our trainers come from industry and have industry skills and knowledge and are accredited assessors for VICRoads, RTA, WorkSafe and EPA/DSE.

It's our business to listen and understand your training needs, apply our knowledge of Australia's training and licensing systems and provide you with the best solution.

We don't just issue licences, we take safety and operator efficiency seriously. People leave NISTC as qualified operators.

Individual training for heavy vehicle drivers

Please contact us for personalised training and/or heavy vehicle licence assessment in light rigid, medium rigid, heavy rigid, heavy combination or multi-combination driving. Bookings can be made at a time to suit you!

DIPLOMA OF LOGISTICS

Where this course may lead

As a graduate of the Diploma of Logistics, you can find employment opportunities in a range of sectors including customs and freight, dispatching and deliveries, postal services, warehousing and inventory, road, rail and freight operations, domestic and international airlines, and public transport.

What you learn

You develop an understanding of the higher-level operational business and managerial requirements of a commercial logistics and supply chain operation.

Your attendance

- One year full-time
- Two years part-time
- Distance learning

Other logistics courses offered

- Certificate II in Transport and Logistics (Warehousing and Storage)
- Certificate III in Transport and Logistics (Warehousing and Storage)
- Certificate IV in Transport and Logistics (Warehousing and Storage)

VEHICLE RECOVERY

Where this course may lead

Coupled with our four-wheel-drive course, vehicle recovery includes the use of a range of recovery equipment and advanced skills to recover four-wheel-drive vehicles in difficult terrain. You learn to recover bogged or ditched vehicles in a variety of situations, using vehicle-mounted and hand-operated winches to a calculated pull of up to 10,000kg.

What you learn

- Winching techniques
- Safety precautions
- Tackle layouts
- How to calculate the effort required to move the vehicle
- How to ensure tackle safe working loads (SWL) are /not exceeded
- Safe use of snatch blocks
- Safe use of recovery straps
- Safe use of tow chains
- Winching hand signals

Your attendance

- Option 1 Evening theory followed by one day of training and assessment
- Option 2 Theory, training, and assessment over two days
- Weekend programs available on request

FORKLIFT

Where this course may lead

This course enhances your knowledge and experience of forklift operation in line with relevant state, OHS, and national certification requirements. Employment opportunities exist within the warehousing, transport and logistics sectors.

What you learn

- Standards and regulations
- Personal safety machine safety
- Pre-operational checks
- Capacity plates
- Balance and stability
- Loading and stacking
- Attachments
- Shut-down procedures
- Practical forklift operation

Your attendance

- You must have sufficient knowledge of the English language to perform your work safely
- Course is conducted over four days, from 8am to 4.30pm each day

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY

EARTHMOVING

Where these courses may lead

These short courses develop your skills and knowledge as an operator of earthmoving, plant equipment in line with relevant state and national certification requirements. Employment possibilities include city councils, civil construction sites, road construction and maintenance. Machinery used during the courses includes the following.

- Front-end loader/backhoe (LB)
- Skid-steer loader (LS)
- Front-end loader (LL)
- Excavator (LE)
- Dozer (LZ)

What you learn

- Occupational health and safety standards and regulations
- Personal and machine safety
- Pre-operational checks
- Shut-down procedures
- Preventative maintenance and attachments

Your attendance

- 12 days (front-end loader, skid-steer loader, backhoe, and excavator)
- Five days (excavator and front-end loader)
- Five days (backhoe and skid-steer loader)
- Three days (dozer)
- Training can be arranged at your workplace

MOTORCYCLE LEARNER'S PERMIT AND PROBATIONARY LICENCE

Where these courses may lead

These courses enable you to gain the skills and knowledge you need to obtain your motorcycle learner's permit or motorcycle probationary licence in Victoria.

You can use an NISTC-owned motorcycle or your own motorcycle for the duration of the training. Your motorcycle must be registered and roadworthy.

What you learn

These courses provide the training you need to obtain a Victorian motorcycle learner's permit or a motorcycle probationary licence. If you are from NSW or if you intend to enrol in one of these courses, you are welcome to attend to gain experience only.

Your attendance

- Your blood alcohol content must be 0.0 per cent
- Full skin cover and fully-enclosed footwear are NISTC policy
- Each course is conducted over one day, from 8am to 4.30pm

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
	1 Motorcycle Probationary Licence	2	3 Perform Basic Machining Processes	4	5	6

DOGGING

Where this course may lead

This course enables you to gain a dogging certificate in line with relevant state, OHS, and national certification requirements. Basic skills regarding the slinging and movement of loads with cranes are covered. When you finish the course, you will be able to safely direct and position loads using various communication systems.

What you learn

- Standards and regulations
- Safe work practices
- Crane types and uses
- Handling and directing loads
- Calculations and estimations
- Fibre rope/steel-wire rope/chain
- Selection and use of slings
- Sling attachments
- Practical operations

Your attendance

- Course is conducted over eight days (six days training, two days assessment), from 8am to 4.30pm each day
- Training can be arranged at your workplace

ELEVATING WORK PLATFORM

Where this course may lead

This course enhances your knowledge and experience of elevating work platform (EWP) operation in line with relevant state, OHS and national certification requirements. Employment possibilities include city councils, civil construction sites, arborists, sign writing, electrical, painting and decorating.

What you learn

- Standards and regulations
- Site and job planning
- Pre-operational checks
- Setting up the EWP
- Operating the EWP
- Shutting down the EWP

Your attendance

- Wear suitable clothing and footwear (safety shoes or boots are required)
- Course is conducted over three days (includes assessment for national certification), from 8am to 4.30pm each day

CHAINSAW OPERATIONS

Where this course may lead

This course develops your knowledge and attitudes towards the safe and efficient use of chainsaws in the forestry, arboriculture, and farming industries. This course is a mandatory requirement for the operation of chainsaws in the commercial environment and is the prerequisite for the Level 2 Fall Trees manually basic course.

- Course is a mandatory requirement for the operation of chainsaws in the commercial environment

What you learn

- Operator safety and responsibilities
- Aids and equipment
- Worksite preparation
- Work techniques

Entry requirements

You must be physically fit and capable of operating a chainsaw for the duration of the course.

Your attendance

- Safety boots must be worn
- Need your own transport to the worksite as felling sites are in remote areas
- Hard hats, high visibility vests, and hearing protection are provided
- Course is conducted over four days, from 8am to 4.30pm each day

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY

ROAD TRANSPORT AND HEAVY VEHICLE

These courses provide the following training for truck drivers in the Albury Wodonga and Wangaratta areas.

- Heavy combination (HC)
- Heavy rigid (HR)
- Medium rigid (MR)
- Multi-combination (MC)

Training in fatigue management and the licensed transportation of dangerous goods is also available.

Training is conducted at the NISTC facility, and can alternatively be arranged at your workplace using either your vehicle or one of Wodonga TAFE's vehicles.

Where these courses may lead

You gain the appropriate endorsement to your existing licence, as required by VicRoads and the RTA (NSW).

What you learn

- Road rules
- Learn to drive to licensing standards
- Licensing
- Pre-operational checks

Your attendance

- Four days (MR)
- Five days (HR and HC)
- Two days (MC)
- Course duration may be reduced depending on experience and enrolment numbers
- Please contact NISTC for more information about entry requirements and what to bring for each course

FABRICATION AND WELDING

- Manual metal arc welding
- Gas tungsten arc welding
- Gas metal arc welding
- Flux core arc welding
- Gas tungsten arc welding
- Oxyacetylene welding
- Certified welding (to AS1796 certificate)

Where these courses may lead

These short courses enhance the skills of fabrication tradespeople and apprentices who work in the engineering industry.

What you learn

Covering all welding processes, from introductory to advanced levels, each course has theoretical and practical components and is offered in our fully-equipped fabrication and welding workshop.

For example, successful completion of certified welding (to AS1796 certificate) increases your opportunities to advance your level of employment in the fabrication and welding of pressure vessels and pressure pipe areas of the fabrication and welding industry.

For further information contact Fabrication and Welding on 02 6055 6645.

LOAD RESTRAINT

Where this course may lead

This course provides you with the skills and knowledge you need to restrain a variety of loads including plant and equipment in accordance with Australian standards and the national load restraint guide.

This qualification is a valuable asset in the workplace and training is offered across Victoria and NSW.

What you learn

- Chain of responsibility
- Principles of load restraint
- Arranging loads on vehicles
- Restraining loads on vehicles
- Types of loads
- Vehicle structures

Your attendance

- Course is conducted in one day, from 8am to 4.30pm
- Training can be arranged at your workplace

FOREST HARVESTER

Where this course may lead

This course enhances your knowledge and experience as an operator of a single-grip harvester and forwarder in line with relevant state, national, and industry requirements. Employment possibilities exist within the forest products industry.

What you learn

- OHS policies and procedures
- Environmental care procedures
- OHS standards and regulations for personal and machine safety
- Pre-operational checks
- Shut-down procedures
- Preventative maintenance
- Operating techniques for single-grip harvester and forwarder

Your attendance

- Two to three weeks depending on level of competence (weather conditions and fire restrictions may impact on duration)
- Course is conducted in a pine plantation, from 8am to 4:30pm each day
- Need your own transport to the worksite as harvesting sites are in remote areas
