

Welfare Policy

Wodonga Institute of TAFE is dedicated to the welfare of students and provides a number of support services to assist them. The Learner Services department has the primary responsibility for providing services such as information provision and support, referrals to internal and external services and working with students to identify barriers and implement strategies to assist students in reaching their personal and educational goals.

Students can access services via contacting Learner Services directly, or may be referred to Learner Services by a Wodonga Institute of TAFE staff member.
