

Coaxial Cabling Endorsement

OVERVIEW

Successfully completing this course enables you, as a licensed cabler, to add the Coaxial Cable endorsement to your Australian Communications and Media Authority (ACMA) Open Registration.

All customer cabling work in the telecommunications, fire, security and data industries must be performed by a registered cabler, with all cablers required to register with an Australian Communications and Media (ACMA)-accredited registrar. Cabling providers undertaking structured, optical-fibre or coaxial cabling work on customer premises must have the training competencies (endorsement) relevant to the specialised cabling work.

LEARNING OUTCOMES

- Types of coaxial cable, connectors and special tools
- Install and terminate coaxial cable types, including hardline (internal or external) and flexible (internal or external) to industry standards.

COMPULSORY UNITS

ICTCBL303 Install and terminate coaxial cable

ASSESSMENT

The assessments will enable students to demonstrate the underpinning knowledge, skills and attributes required to meet the course outcomes. A range of assessment strategies to meet different student's needs will be selected, and installation of coaxial cabling systems including hardline, performing certification testing including analysis of results, and an AS/NZS1367 assignment and examination.

LICENCES/TICKETS

Upon application, Coaxial Cabling Endorsement will be added to your ACMA Open Registration
