

Certificate IV in Music Industry

OVERVIEW

This course is for you if you have some experience using professional audio recording equipment, or a genuine desire to make your start in the sound production industry. Learn in a real-world environment with our on-campus studio! This course will appeal to you if you are hoping to work as a sound mixer/technician or sound recorder/engineer in the music, performance and media industries. At the completion of this course you will be able to mix live bands and concerts, and record and master music for professional release. Taught by experienced sound production professionals, this course will give you the edge you need to succeed in the music industry.

LEARNING OUTCOMES

- Establish and manage production requirements and resources
- Mix live audio, record sound, and mix recorded music
- Operate professional audio equipment and advanced sound editing
- Apply knowledge of genres to music making
- Provide sound reinforcement and compile audio material for broadcast
- Record and mix a basic music demo
