Connecting to TAFE-ACCOMMODATION with Windows XP

1. Double click on the network connections icon near the clock. Select TAFE-ACCOMMODATION by single clicking, single the ‘Connect’ button, then single click on ‘Connect Anyway’ button.

2. Open Internet Explorer and click the stop button. Near the top right, single left click on the ‘Tools’ menu.
3. At the bottom of the menu, single left click on ‘Internet Options’.

4. A new window for Internet Options will load, clicks on the ‘Connections’ tab, then single left click on the ‘LAN Settings’ button at the bottom of the window. A smaller window will load named ‘Local Area Network (LAN) Settings’ will load. Tick the ‘Automatically detect settings’ box and un-tick any other boxes.

5. Click ‘OK’ to both of these windows and close Internet Explorer.

6. Load Internet Explorer again, you will be presented login box. Enter your full TAFE email address, or if you’re a La Trobe student the username that has been provided (it is very important that both TAFE and La Trobe students enter their usernames in the form of username@wodongatafe.edu.au). Enter your password and if you would like your computer
to remember the password tick the ‘Remember my password’ box. Then click ‘OK’.

7. Next type in the web address `webmarshal.home` and press Enter. When the page loads, click on the link in the middle of the page that says ‘Install Root Content Inspection Certificate’.
8. A download box will appear, click ‘Open’.

9. A new windows called ‘Certificate’ will appear, at the bottom of single click ‘Install Certificate...’.
10. Click next through the following windows.
11. Click finish.

12. A dialog will open to say the import was successful, click ok on the last two windows and you can start browsing the internet.
